Monthly Bookkeeping Checklist

Run through this once a month and you'll never face a year-end scramble.

☐ **Reconcile your bank account**

Match every transaction against your bookkeeping records.

☐ **File every receipt from the month**

Photograph or file paper receipts — don't let them pile up.

☐ **Confirm transactions are categorised**

Nothing should be left sitting as "uncategorised."

☐ **Check for unwanted subscriptions**

Cancelled services still being billed cost you quietly.

☐ **Chase overdue invoices**

Follow up on anything more than 30 days overdue.

☐ **Review upcoming bills**

Know what's due in the next few weeks before it surprises you.

☐ **Check business vs. personal spending**

Make sure nothing has been mixed this month.

☐ **Review your cash position**

Money in, money out, what's actually left.

☐ **Note anything unusual**

Flag it for your bookkeeper or accountant to check.

☐ **Back up your records**

Export or back up if you're not on cloud software.

Want this done for you? This is exactly the checklist we run through for clients every month, so you never have to think about it. Get a free quote at ledgerly.ie/contact.html
